2024-25 RULES CHANGES

<p>2-1-3, 2-1-4, 5-24-1, 6-5-1, 6-6-6, 7-6-1</p>	<p>The 10-foot circle in the center of the wrestling area is now optional. Wrestlers will continue to be encouraged to keep action in the center of the wrestling area. Rationale: The starting lines of each mat indicate the center of the mat, and the 10-foot circle is not relevant or necessary for awarding scoring or penalizing wrestlers during competition. With the new mat designs that have a large mascot or logos, it gives a refreshing look to the wrestling mats. Wrestlers and officials know where the center of the mat is located without the 10-foot circle.</p>
<p>5-10, 5-15-1, 5-15-2b, 5-15-2c, 5-15-3, 5-18, 5-22-1, 5-22-2, 5-25-1, 5-25-3, 6-4-1</p>	<p>Modifies that only one point of contact by either wrestler meets the requirements of being inbounds. Rationale: This rule safely eliminates the subjectivity of the out-of-bounds call. The rule change also helps coaches and wrestlers understand more clearly what out of bounds is and help officials call out of bounds more consistently.</p>
<p>5-11-2g, 5-11-2h, 5-11-3, 9-1-5, Scoring Symbols</p>	<p>Redefines how near-fall points are awarded by equating the number of seconds in which near-fall criteria are met to the number of points awarded. An offensive wrestler now earns two points for two seconds, three points for three seconds and four points for four seconds. Additionally, points awarded related to the defensive wrestler becoming injured and bleeding were also modified. As a result, the scoring symbols for near-fall points have been amended. Rationale: The goal in wrestling is to pin the opponent. Changing the near-fall points awarded should motivate wrestlers to work for a fall and simplify the points awarded based on how long the wrestler is held in near-fall criteria.</p>
<p>5-11-4</p>	<p>Clarified that a technical fall has concluded when near-fall criteria are no longer met. Rationale: This change will consistently clarify when the technical fall has concluded in relation to the near-fall criteria being met. The offensive wrestler cannot be penalized appropriately after the technical fall has been earned.</p>
<p>5-28-4, Official Wrestling Signals</p>	<p>Created a signal for a referee’s time-out when the referee needs to address a situation not covered by injury, blood or recovery time.</p>

	Rationale: This signal is used universally in many other sports but has never been codified in the NFHS Wrestling Rules Book. An additional signal needs to be added to the Official Wrestling Signal making it signal #29.
9-1-2, Summary of Scoring, Scoring Symbols	Increased the number of match points awarded for a match point takedown from two to three. As a result, the scoring symbol for takedown has been amended. Rationale: To promote more scoring activity when wrestlers are in neutral position.

2024-25 POINTS OF EMPHASIS

The NFHS Wrestling Rules Committee and the NFHS Board of Directors believes there are areas of interscholastic wrestling that need to be addressed and given special attention. These areas of concern are often cyclical, some areas need more attention than others, and that is why they might appear in the rules book for consecutive editions. These concerns are identified as "Points of Emphasis." For the 2024-25 high school wrestling season, attention is being called to: Stalling and Stalemate, Dangerous Maneuvers and Holds, Proper Terms: Default, Medical Forfeit, Forfeit, Referee's Duties and Imminent Scoring. When a topic is included in the Points of Emphasis, these topics are important enough to reinforce throughout the academic year because they are not being given the proper attention needed.

Stalling and Stalemate

The act of stalling is an intentional act(s) of avoiding aggressive wrestling. The emphasis of stalling is reinforced by the numerous rules and assignment of its own penalty chart to penalize inactive behavior by a wrestler. The referee warns the offending wrestler(s) and if continued, subsequent penalties are invoked. However, a stalemate is considerably different. Both wrestlers are aggressively wrestling and are interlocked in a position other than a pinning scenario, in which neither can improve their respective position(s). The referee stops the match and wrestling shall resume from the center of the mat.

Dangerous Maneuvers and Holds

In the purest form of wrestling, two similar-sized athletes use their strength, guile, ability and repertoire of moves to control and dominate their opponent. NFHS rules have always made moves and maneuvers that intentionally injure or punish a wrestler illegal, and work on removing them from our sport. Some moves, maneuvers and holds are starting to filter down to our level from other influences that are not education-based athletics. The NFHS disapproves of any move, maneuver or hold that intentionally injures limbs, joints, penetrates any body cavities or renders a wrestler unconscious. Allowing those techniques to infiltrate into our sport is irresponsible, dangerous and in certain jurisdictions illegal.

No one wants to drive any students out of the sport. If parents are not confident that their children are in a well-managed risk environment, then they will not let them participate. That would be devastating to a sport that we have already seen a trend of declining participation numbers. We need to do everything possible in our schools to attract more students and retain them in our programs. Eliminating questionable moves, maneuvers and holds is the first place to start. Regardless of your role as either coach or referee, you must work together to keep certain techniques out of our sport.

Wrestling is one of the oldest sports in the world. The benefits of participating are phenomenal in developing high school students to better understand their bodies, appreciate discipline, be self-reliant and develop toughness that will be a life skill that they will use their entire lives. Let us direct our attention to preserving our sport for many more generations to come.

Proper Terms: Default, Forfeit, Medical Forfeit

In the purest and simplest form, a default is awarded when a wrestler is unable to continue wrestling for any reason. The match has started and they cannot continue to wrestle anywhere during the match. The opponent wins and the defaulting wrestler receives the loss. A forfeit is when an opponent fails to appear for a match for any reason. Their opponent shall be present in a legal uniform on the mat, ready to wrestle. The forfeiting wrestler takes a loss on their record and is out of competition. With the introduction of the new category of Medical Forfeit, if the forfeiting wrestler cannot wrestle due to an injury or illness that occurred during the tournament. The wrestler remains in the tournament if possible (moving down to the consolation bracket) and does not take a loss on their record. This entire designation is determined by the tournament director after consultation with the on-site appropriate health-care professional and the coach of the injured or ill contestant. All three actions cease wrestling for different reasons and have unique consequences.

Referee's Duties

The role of the referee is an integral part of the sport of wrestling. The essence of the sport is based upon the interpretation, judgment and execution of the rules. The referee has the authority to make rulings based upon their high school experience and mastery of the NFHS Wrestling Rules. Besides rule expertise, the referee has other important duties to ensure that all participants have a fair opportunity to compete in a space that limits their physical risks. In addition to skin checks and grooming, reviews with scorers and timekeepers, checking the legality of special equipment, uniforms, pads and taping, the referee is responsible for making sure the mat, mat areas and their markings are compliant with the rules. The referee conducts an inspection by walking around the area and visually making sure that the facility is in a reasonably safe condition. The referee is the protector of the competitors from rule compliant uniforms, equipment to appropriate mats. The role of the referee is unique and extremely valuable for all the participants, coaches and supporters.

Imminent Scoring

Imminent scoring is typically referred to a situation where one wrestler is on the verge of scoring point(s). This is because either one of the wrestlers is in a position to score a takedown, reversal, escape or near-fall, all available methods to scoring points in a wrestling match. The term “imminent” implies that the scoring opportunity is immediate or very close to happening. The term is often used by coaches and participants to describe a crucial moment in a match where a wrestler has a clear opportunity to score points and take control of a match.

2024-25 RULES INTERPRETATIONS

Requests for rule interpretations or explanations should be directed to the OSAA. The NFHS will assist in answering rules questions from the state associations whenever called upon.

OSAA ADOPTED WRESTLING RULES AND INTERPRETATIONS

The 2024-25 NFHS Wrestling Rules Book will be used with the following clarifications:

1. **UNIFORMS:** All uniforms shall meet the specifications in the 2024-25 NFHS Wrestling Rules Book, Rule 4. School uniforms only are to be worn by contestants.
2. **OREGON WRESTLING WEIGHT MONITORING PROGRAM** <http://www.osaa.org/activities/wre/information/owwmp/>
 - A. League/Conference/District Committees do not have the authority to waive the requirements set forth in the Oregon Wrestling Weight Monitoring Program.
 - B. All wrestlers participating at OSAA member schools will be required to conform to the policy and regulation outlined in the Oregon Wrestling Weight Monitoring Program. The Oregon Wrestling Weight Monitoring Program webpage contains all program information.
 - C. The school shall have on file for each wrestler a copy of the wrestler’s initial assessment data, the wrestler’s individual season long weight loss plan and if needed a copy of the physician’s release form for any wrestler assessed with a body fat below 7% for males and 12% for females. The OSAA may request any of these forms on an as needed basis.
 - D. A wrestler may appeal the results of the initial body fat assessment by following the guidelines outlined in Section VII of the Oregon Wrestling Weight Monitoring Program.
3. **INDIVIDUAL SEASON LONG WEIGHT LOSS PLAN**
 - A. Each school entered into a Special District tournament must present, prior to the drawing of any tournament bracket, a roster containing a listing of their potential wrestlers and the two eligible weight classes for each wrestler on that competition date to determine weight class(es) of eligibility.
 - B. Special District Tournament Directors in each league/conference/district qualifying tournament have the responsibility to determine the eligibility of all wrestlers entered into the event.
 - 1) **MINIMUM WRESTLING WEIGHT** – The NWCA Optimal Performance Calculator powered by TrackWrestling will be used to calculate a wrestler’s minimum wrestling weight.
 - 2) **WEIGHT CLASSES OF PARTICIPATION** – The season-long weight loss plan will determine which weight classes a wrestler may participate at each week.
 - 3) For each contest or event during the season:
 - a) If a wrestler’s weigh-in qualifies the wrestler for either of the two eligible weight classes listed on their season long weight loss plan for that given week, the wrestler may participate at the weight class for which they qualify or one weight class higher.
 - b) If a wrestler’s weigh-in does not qualify the wrestler for the lowest eligible weight class listed on their season long weight loss plan for that given week, and they participate, the wrestler will be considered an ineligible participant and the represented school is subject to penalties outlined in Rule 5 of the OSAA Handbook.

- 4) If a wrestler's weigh-in does not qualify the wrestler for the highest eligible weight class listed on their season long weight loss plan for that given week, and they participate, the wrestler's lowest eligible weight class for the season shall be immediately re-certified up one weight class. In these cases, prior to any future competition each member school is responsible to manually raise the wrestler's lowest eligible weight class within the schools TrackWrestling OPC account.
- 5) Any wrestler whose body fat was assessed below 7% males and 12% females at the time of initial assessment shall not use the growth allowance granted in Part V of the policy to achieve a lower minimum wrestling weight.
- 6) APPEAL - A wrestler's season-long weight loss plan can only be recalculated by following the appeal procedures listed in Section VII of the Oregon Wrestling Weight Monitoring Program.

4. **WEIGH-INS**

- A. A contestant shall weigh-in for each match according to the 2024-25 NFHS Wrestling Rules Book, Rule 4, Section 5 with the exception of Art 7. Art 7 has been modified as follows:

ART. 7 . . . All contestants shall weigh-in wearing a legal ***competition*** uniform (4-1-1), ***without modifications***, and a suitable undergarment that completely covers the buttocks and the groin area. Contestants shall not weigh-in wearing shoes or ear guards. Female contestants shall also wear a sports bra that completely covers their breasts and minimizes the risk of exposure. For female contestants wearing a compression shirt under a one-piece singlet in order to comply with the definition of a legal uniform (4-1-1). If the compression shirt is part of the legal uniform, the contestant shall weigh-in wearing the compression shirt. Contestants may wear socks that cannot be removed or added if the wrestlers do not make weight.
- B. Weigh-in and designation of contestant shall be in accordance with the policy and regulation contained within the Oregon Wrestling Weight Monitoring Program.
- C. Prior to any weigh-in during the regular season each school is required to provide a roster containing a listing of their potential wrestlers and the two eligible weight classes for each wrestler on that competition date. Each wrestler's actual weight and weight class of participation that day will be recorded on the school's roster and submitted to the represented school's Athletic Director directly after the conclusion of the event.
- D. The school's Athletic Director is responsible to verify that the season long weight loss plan for any wrestler who has failed to qualify at one of their eligible weight classes for an event has been modified, as outlined above, prior to any future competition.
- E. A wrestler may not weigh in at another school unless their school is included in the meet.
- F. If a school is traveling, the school may not conduct the official weigh-in at home. All weigh-ins must be conducted shoulder to shoulder at the site of the meet.
- G. Only those wrestlers who are eligible to wrestle in a match may weigh in. Each school's Alpha Master Report indicates eligible wrestlers for each event. League/Conference/District rules may require that at the time of weigh-in the coach provide the school's Alpha Master to the opposing coach or tournament director to verify that the wrestler's assessment data has been entered in the NWCA Optimal Performance Calculator and that a minimum wrestling weight has been assigned. A wrestler whose name does not appear on the Alpha Master is an ineligible participant.
- H. League/Conference/District rules may require that wrestlers whose body fat is assessed below 7% for males and 12% for females must have a copy of the Physicians Clearance Form at the time of weigh-in. This form will indicate the minimum wrestling weight class that they can participate in.
