Wrestling Contingency Group Meeting Wednesday, Nov 4 Zoom Meeting - 6:30 – 8p

Meeting Notes:

Proposed Season Plan:

The group reviewed a proposed season plan that outlined various recommendations, guidelines and restrictions that would help schools begin wrestling on Dec 28.

Based on feedback from the OSAA Executive Board the proposed guideline requiring PCR testing would be deleted – there is currently no support to require testing prior to participation.

The document did have consensus and could potentially be used even with a later start date if required.

A copy of the proposed season plan with modification is attached ..

Recommendation if Dec 28 is not possible:

The group was unanimous that if the Dec 28 start date is not possible they would like to move to Season 4.
