2026-27 RULES CHANGES

4-2-1a, 4-2-1i(3) (NEW), 4-2-2	Libero uniform bottoms may be any color and no longer must match the team uniform bottoms. Rationale: Allows more flexibility in the libero uniform bottoms while ensuring that the libero uniform top continues to contrast with their teammates.
5-5-3b(21)	The second referee will provide a double whistle warning between sets at two minutes, 30 seconds (4:30 when intermission is used) instead of 2 minutes, 45 seconds. Rationale: Improves pace of play between sets by notifying teams earlier to make their way onto the court for the officials to administer lineup checks before the final audio signal and resumption of play.
6-4-2, 10-4-3a, 10-4-3d	A team may designate up to two liberos, but only one libero can be in the game at a time. When a team designates two liberos and one is injured/ill, a new libero may be re-designated. When a team designates two liberos and one is disqualified; the team must continue with one libero. Rationale: Allows more student-athletes to participate by creating an additional opportunity for coaches without having to utilize a substitution.
6-4 PENALTIES 1c (NEW), 12-2-8b NOTE (NEW)	If non-playing teammate(s) (bench players) enter the court during play it is illegal alignment. It remains a conduct violation if a coach or team attendant (anyone not in uniform) enters the court while the ball is in play. Rationale: More appropriately assesses illegal alignment (loss of rally/point awarded to the opponent) to non-playing teammates who enter the court while the ball is in play. A player who enters the court during play may still receive a conduct violation if they engage in disconcerting acts, disrespectful language, etc. This penalty realignment allows officials to appropriately penalize teams based on participant actions.

6-5-1	Players on the serving team are not permitted to raise their hands above their heads during service until the ball has passed beyond the net. Rationale: Discourages player positioning during the serve that prevents the receiving team from viewing service contact and/or the flight of the ball and assists officials when evaluating the existence of screening. This change aligns with all other volleyball rules codes.
9-2-1 NOTE 1 (NEW)	Players shall not wear any audio or video devices during the match. Rationale: Clarifies the prohibition of electronic communication with and by players during the match and aligns with other NFHS rules codes.
12-2-8m (NEW)	It is an unsporting conduct violation if coaches, non-playing teammates or team attendants use props on the bench during celebrations. Rationale: Clarifies appropriate bench conduct for consistent enforcement by eliminating the use of props in bench celebrations while promoting sportsmanship and preventing disruption and potential safety concerns.

2026-27 POINTS OF EMPHASIS

Referee's Platform Safety

Student-participants' and officials' safety continues to be the top priority of the Volleyball Rules Committee. Often overlooked, referee platforms can be incredibly dangerous if they are old, broken, improperly set up, etc. It is critically important that these platforms are safe and secure and provide the correct line of sight for our referees to confidently climb the ladder, stand on the platform and officiate without fear of injury.

By rule, hosts must provide a safe, stable platform. The first referee (R1) should carefully examine the stand prior to the match, and if the first referee determines that the platform is unsafe, the match will still go on, and the R1 will work from the floor. When evaluating the referee stand, ensure the platform is secured over top of the top ladder rung. Never step onto a platform where the platform is simply touching the top ladder rung. Referees should not use ladders, chairs, boxes, trash cans or similar substitutes that could endanger the well-being of the official. Additionally, to appropriately officiate a match, it is preferred that the referee stand be adjustable to ensure that the R1's head is 2-3 feet above the height of the net. If there are any issues, the referee should notify the host school and the state association.

Equipment Evaluation

Regularly evaluate volleyball equipment for signs of wear like frayed nets or cables, posts that are bending inwards, and padding that no longer protects or fits tightly—plus any parts that no longer hold proper tension. If a post or net has been taped or improvised to keep it working, it is a sign the system is not performing—or protecting athletes and officials—the way it was designed to and should be replaced.

Also check equipment for safety and playability. Systems that have loose tension within the net or can no longer meet current net height rules are strong replacement candidates. As a rule of thumb, heavily used school systems often need major components refreshed every 8–12 years, sooner if usage is high or maintenance has been inconsistent. Check with the equipment manufacturer for recommendations regarding replacement timelines.

Prematch Readiness

To set the match up for success, it is imperative that assistant officials (scorer, libero tracker, timer and line judges) are secured by host management and have reported to the first referee no less than 20 minutes prior to the starting time. This allows assistant officials the time necessary to complete their prematch duties as outlined in Rule 5. Host management's prematch readiness creates a smooth prematch for all officials and allows the match to begin without delay.

Electronic Devices

As our society continues to increase its use of electronic devices in all aspects of our lives, it is important to remember that when on the court, there are specific rules governing their use.

1. At no time during the match may an official use an electronic device to review a decision of the referee. (11-3-2)

2. At no time shall the first or second referee consider replay. (5-1-2)
3. A team may use electronic devices during the match as long as they are not in restricted areas as determined by the host (9-2-1a) and as long as the first referee determines that they are not interfering with the contest. (9-2-1b)
4. No player shall wear any audio (microphone) or video (camera) device during the match. (9-2-1 NOTES 1)
5. Referees are permitted to wear headsets for communication purposes. An excellent free resource is the NFHS course; Officiating Volleyball: Using Wireless Communication on the NFHS Learn platform.
6. State associations may have policies to further address the allowance and/or restriction of electronic device use during matches. (9-2-1 NOTES 2)
7. Each state association may, in keeping with applicable laws, authorize exceptions to NFHS playing rules to provide reasonable accommodations to individual participants with disabilities or unique and extenuating circumstances. The accommodations should not fundamentally alter the sport, heighten risk to the athlete/others or place opponents at a disadvantage (4-1 NOTES 2).

Bench Personnel – Non-Playing Teammates

High school volleyball allows student-athletes to compete with their friends representing their school and community in an environment that serves as the extension of the classroom. As part of the experience, non-playing teammates (bench players) and other bench personnel have a role to positively support their teammates by celebrating and encouraging those playing on the court with spontaneous cheers. It is not legal for anyone on the bench to use props. A towel is athletic equipment and is not considered a prop if used in conjunction with a spontaneous celebration.

State associations may require a sportsmanship message to be read by public-address announcers prior to the match encouraging good sportsmanship. Game officials shall not address spectators at any time; however, referees have the responsibility to notify game management of any spectator misconduct. Unsportsmanlike conduct by spectators is the responsibility of the host management. In the absence of host management, the responsibility for addressing spectator behavior shall revert to the host head coach.

Identification of the NFHS Authenticating Mark on Game Balls

The NFHS Authenticating Mark ensures easy identification of inflated and non-inflated balls used in interscholastic competition for which the NFHS writes playing rules. All such balls are required to display the NFHS Authenticating Mark. The use of conforming equipment is essential to the integrity of contests played under the NFHS rules. This mark helps to promote a level playing field by ensuring consistency in the equipment being used. The mark allows for the development of more sophisticated standards in balls and clearly communicates to administrators, coaches, and officials that these standards are being met.

Non-compliance with these requirements will be reported to the state association for potential penalties following the contest. Administrators and coaches play a pivotal role in making sure all inflated and non-inflated balls meet these specifications. They must instill the importance of proper equipment use through consistent reinforcement during the pre-competition certification meeting and throughout the season. Game officials must also remain vigilant and report any non-compliant balls to the state association office.

2026-27 RULES INTERPRETATIONS

--	--

2026-27 COMMENTS ON THE RULES

4-2-1a, 4-2-1i(3) (NEW), 4-2-2	The libero must be easily distinguishable from their teammates on the court. Permitting liberos to wear any color uniform bottom allows flexibility for teams while maintaining the integrity of the contrasting uniform.
5-5-3b(21)	Providing 15 additional seconds to the second referee for the administration of lineup checks before the final audio signal and resumption of play improves the pace between sets. Teams will still have 3 minutes (5 minutes when intermission is used) between sets before the final audio signal.
6-4-2, 10-4-3a, 10-4-3d	Allowing up to two liberos to be designated for each game increases the opportunity for more student-athletes to participate. A team may designate zero, one or two liberos, but only one libero can be in the game at a time. When a team designates two liberos and one is injured/ill, a new libero may be re-designated. When a team designates two liberos and one is disqualified, the team must continue with one libero.

6-4 PENALTIES 1c (NEW), 12-2-8b NOTE (NEW)	When a non-playing teammate(s) (bench player) enters the court during play it is illegal alignment (loss of rally/point awarded to the opponent) unless the non-playing teammate(s) enters to engage in behavior that would facilitate a conduct violation (disconcerting acts, disrespectful language, etc.). It remains a conduct violation if a coach or team attendant (anyone not in uniform) enters the court while the ball is in play.
6-5-1	Players on the serving team are not permitted to raise their hands above their heads during service until the ball has passed beyond the net. There is no game-playing need for players to raise their hands above their head during service. This positioning has been used to disguise potential screening making it harder for officials to adjudicate the rules.
9-2-1 NOTE 1 (NEW)	Clarifying the prohibition of the use of audio and video equipment by on-field players, reinforces fair play and ensures that electronic communication is not used during competition. This language aligns with other NFHS sport codes.
12-2-8m (NEW)	The use of props by bench personnel as a part of bench celebrations is an unsporting conduct violation as their use has the potential to create disruptions and present safety concerns.

Requests for rule interpretations or explanations should be directed to the OSAA. The NFHS will assist in answering rules questions from the state associations whenever called upon.

OSAA ADOPTED VOLLEYBALL RULES AND INTERPRETATIONS

The 2026-27 NFHS Volleyball Rules Book will be used with the following clarifications:

A. **Team.** A school team shall not compete on more than 18 playing dates / 36 matches, at each level of competition, exclusive of the varsity district playoffs and state championships.

B. **Individual.** A student shall not compete on more than 18 playing dates / 36 matches, exclusive of varsity district playoffs and state championships. Additionally, a student shall not compete in more than six total sets per day at different levels. If a student exceeds the limit, the match in which the limit is exceeded shall be forfeited. A student may participate in more than one jamboree in a day but is limited to not more than four sets total.

EXCEPTION: The individual limit of six total sets per day at different levels does not apply to double duals or tournament play. In tournament play, a student may participate in only one level of competition during that day. Double duals involve two or three schools competing on one day. In double dual play, a student may participate in a maximum of ten sets at the same level during that day.

Rule 11-5-1, 2 – Provides that a two-minute intermission, for promotional or special recognition activities only, may be used between sets two and three in addition to the regular three-minute interval for a total of five minutes.

OSAA Adoption – This intermission may be used at the varsity level only.

Warm-Up Safety. Risk minimization continues to be a priority for the NFHS Volleyball Rules Committee and the OSAA. Though volleyball continues to have one of the lowest injury rates of the 22 high school sports under surveillance, the growing number of concussions occurring during warm-ups as reported annually by the National High School Sports-Related Injury Surveillance System (High School RIO) has increased awareness regarding warm-up procedures before and during the match.

With the risk of injury being highest during shared net warm-up time, no shared net warm-up time is allowed. Teams can warm up on either side of the net without attacking or serving over the net. Required warm up procedures are as follows:

Match Warm-Up Required Protocol: Minimum amount of warm up time is 20 minutes.

- 20-minute warm-up time: 4 minutes shared court time, each team stays on their chosen or assigned side of the net. Then the visiting team takes the full court for 8 minutes, followed by the home team taking the full court for 8 minutes.
- Double Dual Warm-Up Required Protocol: Minimum amount of warm-up time is 16 minutes.
 - 16-minute warm-up time: Two minutes shared court time, each team stays on their chosen or assigned side of the net. Then the visiting team takes the full court for seven minutes, followed by the home team taking the full court for seven minutes.

Tournament Match Warm-Up Required Protocol:

- 10-minute warm-up: The visiting team has the full court for 5 minutes followed by the home team taking the court for 5 minutes.
- 5-minute warm-up: Visiting team has the full court for 2.5 minutes, followed by the home team taking the full court for 2.5 minutes.

Some things to consider when establishing best practices for implementing this warmup protocol include facility space, shared court time, placement of athletes and those assisting with warm-ups, and familiarity of all team members with the warm-up procedures for the match. In addition to pre-game warm-ups, it should be noted that warming up between sets is allowed. Rule 11-5-3 clarifies that teams must remain on their side of the net, in their playable area. No hitting or serving is allowed and volleyballs may be used only on their own side of the playing area.

State Association Adoptions – Team Benches

The NFHS Volleyball Rules Book, like many other NFHS rules books, includes specific rule modifications that are allowed by state level adoption. These specific rules are found throughout the rules book and address match format, forfeit protocol, uniform and equipment accommodations, line judge flags, electronic devices and even bench rotation. These adoptions allow for decisions to be made at a local level regarding rules that have local implications or have no impact on play. For example, states with more rural competition – long bus rides – might opt to have their schools play best two-of-three sets to allow for shorter competition times.

One accommodation of note is the ability for a state association to authorize permission for teams to remain on the same benches throughout the match. A rules consideration for the 2020-21 season due to the spread of COVID-19 – the elimination of rotating benches between sets – was universally well received.

OSAA ADOPTION: In Oregon, we will continue to eliminate the rotating of benches between sets unless there is a significant advantage on one side of the net which may include hoop heights, lights, or reflections. The officiating crew of the contest will

determine if there is an advantage or not. In a deciding set situation, benches shall remain the same if they have not been rotated between sets, and the deciding set coin toss would only have the options of serve or receive.

Rule 5-9-2b-Line Judges will switch sides of the court between sets when, by state association adoption, teams remain on the same benches throughout the match.

Rationale: Align with the original intent of the rule allowing judges to alternate between each set to promote fair officiating.

OSAA ADOPTION: Varsity level required sub-varsity encouraged.
