School Representation Eligibility Checklist For a Student Who Does Not Attend the School He or She Wishes to Represent

INTRODUCTION: Under certain restricted circumstances, OSAA rules allow students who are not attending a member school to represent that school in competition. The eligibility rules governing that participation vary somewhat depending upon the school the student is attending. This list of questions is intended to serve as a checklist of questions to assist administrators in determining whether a student who does not attend a school is eligible to represent that school in competition.

ALL PARENTS SHALL BE ASKED ABOUT AFFILIATION. In general, a student is ineligible for one calendar year if within the past calendar year the student participated on a non-school team affiliated with the school to which the student is transferring or may represent under **Rule 8.5. School Representation** or **Article 6.5. Cooperative Sponsorship** or if the student received athletic instruction from a person affiliated with the school.

- ❖ If the answer to any of these questions is “YES,” the student may be ineligible, and you should not allow the student to represent the school in competition until eligibility has been thoroughly investigated and confirmed.
 1. Did your son / daughter participate on a non-school team coached by a member of our school’s coaching staff?
 2. Did your son / daughter participate on a non-school team on which a majority of the members of the team were students who attend our school?
 3. Did your son / daughter receive athletic instruction from a person affiliated with our school?
